Re: Sharing of Valentines

Dear Winfield Family,

It is important to acknowledge the times we make mistakes, and this is one of those times. I want to thank the parent who put the most recent CALI scores from the New Jersey Department of Health in front of me.

I am pleased to report that with the updated information, our region is in the yellow or MODERATE designation, and as such, I have decided to allow valentine's cards to be exchanged on Monday, February 14.

As before - any candy or foods will not be allowed to be exchanged.

I apologize for the change of course and any inconvenience. I truly appreciate the data correction, and I look forward to things continuing to return to normal.

Most sincerely,

Ross LeBrun
